EDUCATION

Northeastern University - Khoury College of Computer Science

Boston, MA

Candidate for a Bachelor of Science in Computer Science + Business; Dean's List; GPA: 3.81/4.00

Sep. 2023 – Present

Courses: Object-Oriented Design, Programming Languages, Data Structures + Algorithms, Profit Analysis

Expected: May 2026

TECHNICAL SKILLS & INTERESTS

Languages & Frameworks: React, Nextjs, TypeScript, Java, Python, Node.js, Tailwind CSS, Chakra UI, Flask, Express

Developer Tools: Git, Postman, npm, Vercel, Netlify, Docker, VSCode, Supabase, MongoDB, Amazon Web Service

Interests: Tennis, nonprofit work, college consulting, skiing, running, hiking, biking, real estate, hackathons, traveling

EXPERIENCE

Software Engineer

Sep. 2024 - Present

Digital Archive of Indigenous Language Persistence (DAILP)

Northeastern Digital Scholarship Group, Boston, MA

- Integrated glossary translation support for Cherokee words, potentially benefiting over 2,000 fluent speakers and 10,000-20,000 language learners.
- Engineered key features for DAILP's web dictionary application, enhancing Cherokee language preservation and cultural heritage documentation efforts.
- Practicing effective communication and teamwork in weekly check-in meetings with technical lead and other developers.

LEADERSHIP EXPERIENCE

Head of Developer Experience + Developer

Sep. 2024 - Present

Sandbox

Northeastern University, Boston, MA

- Delivering 3 onboarding workshops about React, GitHub, and Postman, increasing new developer productivity by 65%.
- Taught beginner web developers React on project team during pair-programming sessions to improve team efficiency.
- Participating in sprints and weekly stand-ups in an Agile development environment to ensure effective project delivery.

Technical Mentor

Sep. 2024 - Dec. 2024

Oasis

Northeastern University, Boston, MA

- Mentored 8 beginner developers in 25+ hack sessions, maintaining a 100% developer-retention rate.
- Guided project planning, design, and implementation with strong time-management and organizational skills.
- Simplified web development concepts and addressed questions promptly when leading workshops for new developers.

PROJECTS

GraduateNU | Northeastern degree audit website: React, Nestjs

Sep. 2024 - Present

- Degree audit website empowering 15,000+ Northeastern undergraduates with fast and reliable academic planning.
- Expanded system functionality to support 468 academic minors, enabling seamless integration of minor requirements into degree plans.
- Leveraged browser-based storage sandbox area to empower students with on-site note-taking for improved planning.
- Implemented a cross-project API function to fetch information about individual courses in a degree audit plan.

T-Error | Terminal error tracker: C++, Nextjs, Express.js

Oct. 2024

- Centralized platform for terminal error tracking, winning "Best Developer Tool" at HackHarvard 2024.
- Designed Nextjs dashboard with language processing to classify 100+ errors captured by custom C++ shell wrapper.
- Orchestrated efficient team collaboration and project management, minimizing merge conflicts to 5 across 99 commits.

Securing Safe Food | Nonprofit managment dashboard: React, Nestjs

Sep. 2024 - Jan. 2025

- Inventory portal for Securing Safe Food, a 501(c)(3) nonprofit providing 30+ pantries with allergen-friendly food.
- Developed essential CRUD API endpoints for admins, including robust authentication to protect sensitive data.
- Designed intuitive React components for user authentication, prioritizing accessibility for users of all backgrounds.

EquilibrNews | Nextjs, Playwright, Puppeteer

Apr. 2022 - Jan. 2024

- News application that aggregates and presents news from 8 major publishers, reducing political bias through balanced content presentation.
- Leveraged Playwright and Google's Puppeteer API to efficiently scrape data from diverse news website, including The New York Times, Fox News, and The Wall Street Journal.
- Optimized web scraping algorithms, resulting in 30% reduction in data retrieval time and improved overall performance.
